

Adams Lodge Outfitters

Bruce Clatterbaugh

December 15, 2025

Clients and Friends,

2025 is all but in the rearview mirror, and 2026 is straight down the road. I hope your 2025 hunt was all you expected, whether here or elsewhere, and the planning for 2026 leads to a once in a lifetime experience.

Looking down the trail for Adams Lodge Outfitters in 2026 here are some of the directions we are planning and rumors you may have heard:

- Adams Lodge Outfitters is listed for sale, either in its entirety or in compartments
- The Upper Marvine Lake summer camp has been sold off, along with Big Fish summer camp
- We are currently booking limited and alternate activity summer trips, along with hunting for 2026.
- Hunting in 2026 will be limited to coordinate with available help and our ability to provide an outstanding experience for our clients.
- Archery and Muzzleloader will continue as we have in the past, limiting only those camps above 10,000 feet. The draw will limit these seasons as in the past.
- First Rifle will be limited to just five drop camps, managed as in the past. This will allow us to provide service and give you less hunting pressure around your hunt.
- Second Rifle will be limited to just five drop camps, managed as in the past. This will allow us to provide service and give you less hunting pressure around your hunt.
- Third Rifle will be by your request, again it will be limited.
- Booking for 2026 will be on a first come, first served. We are accepting bookings at this time.
- If you have a left over deposit from last year, please contact me
- See our current price list for 2026
- If we are able to complete a sale of the remaining compartments or part of them, your booking will be honored or your deposit refunded, at your choice.

It is hard to describe how much we have enjoyed this business and the opportunity to meet all our prior clients. If I was 15 years younger and could manage and work the business the way it should be, we would be staying the course. Not the case.

As we move through this process we will continue to provide a quality experience for you. We have excellent help to operate the business at this level, we remain proud and pleased with the safety and quality of our horse and mule helpers. We will do the things we do, as well as we can possibly do. Ride in, Ride out, camp and safety, with an elk or two thrown in!!

Give us a call to either catch up or book for 2026, look forward to hearing from you!

Sincerely,

Bruce Clatterbaugh

Head Wrangler
